# FARM OPERATIONS

- Please Close & Lock ALL Gates behind you  
\*We don't want the babies getting out!
- Be mindful of the animals on the farm... while they are all friendly, they are still unpredictable, live animals...
- Annie & Oakley: our Livestock Guardian Dogs will only bark to keep harmful predators away. They are "working" LGD's...
- Johnny "kitty" Cash: is a character but can also have an attitude since he is an outdoor hunter. Feel free to nicely, but firmly boot him from any furniture if necessary
- Kai & Christiaan: Friesian Horses... love treats and attention but never stand directly behind them... when scared or alarmed, they can accidentally kick
- Chicken Eggs: We will gladly bring you your farm fresh eggs before you leave OR you can gather your own... as many as you'd like during your stay!
- The Goats... they love treats... and will eat almost anything your want to share with them... including frito's & chips LOL
- If you brought along your fur baby, please be sure and keep out of livestock area, unless they are EXTREMELY animal friendly! Annie & Oakley will only become aggressive IF another animal tries to attack any of our livestock...
- Please Keep your pets on a LEASH for this purpose... We want everyone to have fun and stay safe! Extra leashes available if you forgot yours : )
- Please do not feed Annie & Oakley treats (They are working dogs) Thank you
